CONDENSING GAS FURNACES

HIGH-EFFICIENCY FURNACE

TRADE-IN ALLOWANCE

BRYANT CARES ABOUT YOUR C

Trusted Since 1904

For more than a century, Bryant has gone the extra mile to make homeowners more comfortable. We have earned a leadership position in this industry by delivering customized solutions to even the most challenging indoor comfort dilemmas. Today, as you consider your options for your home heating and cooling system, it's comforting to know that when you elect to replace a qualifying furnace with new select Bryant® furnaces, you can receive a trade-in allowance* from Bryant.

The Benefits of Replacing Your System

Deciding whether to repair or replace an existing system is never easy. As you consider your options, be sure to take into account that a new furnace will provide more years of comfort than an older, repaired furnace with the additional benefit of new product parts and warranties. And, our new Bryant furnaces are quieter and more efficient than our older models for even greater comfort and peace of mind.

In addition, replacing major furnace parts such as the heat exchanger can be difficult and labor intensive. In some cases, replacing the whole furnace may be the most economical solution in the long run when you consider operating costs of a more energy-efficient furnace.

Qualifying Existing Furnaces*

- 340A, 340M, 345M, 350A, 350M, 351D, 352A, 352M, 353A, 353B, 353M, 355A, 355B, 355C, 355M, 490A, PG9M, PG9UAA.
- Trade-In Allowance is only available to homeowners whose failed heat exchanger qualifies for the enhanced secondary heat exchanger warranty.
- This consumer promotion is a credit option in addition to the enhanced warranty for select high-efficiency Bryant furnaces.
- The Trade-In Allowance consumer promotion does not alter or affect the enhanced secondary heat exchanger warranty in any way, and the homeowner may still elect to have their secondary heat exchanger repaired at no cost.

* This consumer trade-in allowance promotion is only available to homeowners who own qualifying condensing furnaces that have suffered a secondary heat exchanger failure and qualify for enhanced warranty coverage. See bryant.com for details. This promotion does not affect or alter your rights to elect a FREE secondary heat exchanger repair under the enhanced warranty.

COMFORT AND SATISFACTION

Giving You Choices

Bryant's 90% AFUE family of gas furnaces offers a variety of models to fit a variety of needs. Regardless of which Bryant furnace is the best fit for your home, you'll enjoy outstanding comfort, reliability and savings backed by the most trusted name in comfort: Bryant.

** Instant rebate at time of purchase.

† The limited warranty period is five years on parts and 20 years on heat exchangers if not registered within 90 days of installation except in jurisdictions where warranty benefits are not conditioned upon registration. See warranty certificate at bryant.com for complete details and restrictions.

Gain more control with a complete EVOLUTION™ SYSTEM

With highly advanced communication at its core, a complete Evolution system gives you total control over your home's temperature, humidity, ventilation, air quality and zoning.

EVOLUTION CONNEX™ CONTROL

Capable of managing a complete home comfort system including humidity, ventilation and zoning.

EVOLUTION AIR CONDITIONER

High-efficiency cooling power delivering whole-home comfort and energy savings.

EVAPORATOR COIL

Matches to the proper outdoor unit to provide top cooling efficiency and years of reliable service.

AIR PURIFIER

Uses Captures & Kills® technology to inactivate 99% of select airborne pathogens trapped by the filter, including coronavirus, bacteria and other pathogens.*

HUMIDIFIER

Alleviates dry air by adding moisture.

VENTILATOR

Transfers heating and cooling energy to the incoming fresh air.

* The Evolution™ air purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Evolution air purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the MERV 15 Evolution filter to be inactivated at 99%. Learn how it works at [Bryant.com/purifier](https://www.bryant.com/purifier).
